

# ALICE-ANN KIERNANDER

Dear Melissa Hughes,

I am writing to apply for the Junior Designer position that is being advertised on Drapers Jobs. From reading through the job roles and what you would like from the candidate I am very excited to apply for this permanent position.

I am currently studying BA (Hons) Fashion at the Arts University Bournemouth, where I am specialising in Fashion Technology, I have developed my skills mostly in computer based pattern cutting and designing. I have good skills in Lectra software and Adobe suite where I can create patterns, prints, technical flats, moodboards and colour palettes. I am able to work in both a technical manor and a more hands on approach such as hand sketching.

I am confident that I will be able to work as a part of your team to show you my design skills. I am excited to hopefully have the opportunity to learn new skills in your work place.

I hope that you will consider me as a candidate, I have enclosed my CV. Thank you for your time and I hope to hear from you soon.

Yours Sincerely

Alice-Ann Kiernander
